

Photograph Chobe National Park

Tour is led by Dereck Hindry, with all ground services in Chobe provided by CNP Safaris (Pty) Ltd — Reg. 2015/138225/07.

Welcome to Chobe

The Chobe River in northern Botswana is one of Africa's exceptional wildlife photography destinations — where abundant wildlife, spectacular landscapes and beautiful light combine to create extraordinary photographic opportunities.

Large herds of elephants gather along its banks, alongside buffalo, hippo, crocodile, antelope and incredible birdlife. African Fish Eagles are a constant presence, creating some of Chobe's most iconic photographic moments.

Photographing Chobe from the Water

What makes Chobe particularly special for photographers is the opportunity to experience wildlife from the water. From our dedicated photographic boat, we can work at water level, creating clean backgrounds, dramatic perspectives and intimate encounters often impossible from a traditional safari vehicle.

This is more than a safari. It is an opportunity to slow down, observe animal behaviour and concentrate on creating memorable wildlife images in one of Africa's most remarkable natural environments.

Our Photographic Boat

Designed specifically for wildlife photographers, our photographic boat provides excellent stability, unobstructed views and the ability to photograph wildlife from a low, water-level perspective.

With only a small group of photographers on board, everyone has the space and freedom to capture those special moments as they unfold along the Chobe River.

Sunsets on the Chobe River

Few experiences capture the magic of Africa quite like sunset on the Chobe River.

For photographers, this is one of the most rewarding times of the day. From our photographic boat, we can position ourselves to incorporate elephants along the riverbank, hippos in the water, birds in flight or passing boats into the scene, turning a beautiful sunset into an image that tells the story of Chobe.

As the light fades and the river becomes still, there is time to lower the camera and simply enjoy the moment.

Chobe Safari Lodge

Set amongst mature riverine trees on the banks of the Chobe River, Chobe Safari Lodge provides an ideal base for experiencing one of Botswana's most celebrated wildlife destinations.

Located in Kasane, just minutes from Chobe National Park, the lodge provides easy access to our photographic excursions on the river.

At the end of another day of photography, there are few better places to enjoy a sundowner than overlooking the Chobe River as the African sun disappears beyond the horizon.

Chobe Itinerary

First Day

- 11:50 Flight from O.R. Tambo International Airport to Kasane International Airport | Airlink Flight 4Z306 (recommended flight to book)
- 13:35 Arrival at Kasane International Airport
